

Looking After Number One
Lyrics by Barry Brown
Music by Wilton

Dad Governments have the power to decide what's right or wrong
But sometimes they can't see the wrong they do for oh so long
They see the world in a different way through rose tinted glasses
Everything looks wonderful if you're in the ruling classes

Mom Governments are consistent they don't learn from their mistakes
Or from the mistakes of others, they know what it takes
But we're the ones who suffer when all is said and done
And though they will say otherwise they're looking after number one

Gov. We know what's best for you, there's no need to consult
Just trust in what we do and see the end result
And if we get it wrong, of which there's little chance
We'll say we knew it all along, no-one will give a second glance

 We know what's best for you, there's no need to consult
 Just trust in what we do and see the end result
 And if we get it wrong, of which there's little chance
 We'll say we knew it all along, no-one will give a second glance

Mom Yes we're the ones who suffer when all is said and done
And though they will say otherwise they're looking after number one

Gov. We know what's best for you, there's no need to consult
Just trust in what we do, and see the end result
And if we get it wrong, of which there's little chance
We'll say we knew it all along, no-one will give a second glance

Children Of A Different Kind
Lyrics by Barry Brown
Music by Wilton

Gov. Children of a different kind will never fit the mould
We'd like all of society, to fit if truth be told
We need to find a way to change their thoughts, their hopes, their dreams
To match the ones we have for them, listen to my dream

Take away the children, take them far away
Take them from their parents, take them far away
Take away their language, take them far away
Take away their history, take them far away

We'll change the mundane lives they lead, change the way they talk
Change their spiritual beliefs, we'll change the way they walk
We'll change the language that they speak, we'll change the way they look
Cultivate a culture, a new race, please take a look

Take away the children, take them far away
Take them from their parents, take them far away
Take away their language, take them far away
Take away their history, take them far away

Take away the children, take them far away
Take them from their parents, take them far away
Take away their language, take them far away
Take away their history, take them far away

You'll see the benefits they'll get from changing who they are
To what we want, what we believe will make them like we are
And when the plan is working, the whole wide world will see
The children will be better because they're just like you and me

Take away the children, take them far away
Take them from their parents, take them far away
Take away their language, take them far away
Take away their history, take them far away
Take away the children, take them far away
Take them from their parents, take them far away
Take away their language, take them far away
Take away their history, take them far away
Take away the children, take them far away
Take them from their parents, take them far away
Take away their language, take them far away
Take away their history, take them far away
Take away the children, take them far away
Take them from their parents, take them far away
Take away their language, take them far away
Take away their history, take them far away

Stolen Children (i The Dreaded Knock)
Lyrics by Barry Brown
Music by Wilton

Gov. Good evening Sir, please step aside, I'm on official business
I have the right, so please don't fight, let's try to make this painless

Dad What's that you say? You're gonna take my kid away?
You have no right, you won't get them without a fight

Gov. I have the law on my side, there's nothing you can do
I have the law on my side, step aside I'm coming through

Mom Leave him alone, this is his place, this is his home
Quick close the door, we don't want you round here no more

Gov. I have the law on my side, so there's nothing you can do
I have the law on my side, step aside I'm coming through

Gov. I have the law on my side, so there's nothing you can do
I have the law on my side, step aside I'm coming through

Stolen Children (ii A Little Ride)
Lyrics by Barry Brown
Music by Wilton

Gov. Get in the car, get in the car
 We're gonna take a little ride
 Get in the car, get in the car

Girl Please don't make me get inside

Girl I want to go home to my Father
 You know he's waiting there for me
 I will not go any farther
 I want to see my family

Gov. Get on the train, get on the train
 We're gonna take a little ride
 Get on the train, get on the train

Boy Please don't make me get inside

Boy I don't want to go there Mister
 My Mother's worried can't you see?
 I want to go home I'm scared
 She's my only family

Stolen Children (iii Tell Me)
Lyrics by Barry Brown
Music by Wilton

Boy

I don't understand, I've been on this train for days
Passing places I don't recognize
I don't understand
I don't understand, Why I'm so far from my home
From the people that I love so much
I don't understand

Could it be that I've done something wrong?
Could it be that I'm so bad?
Could it be that I'm the worst child that anybody had?

Tell me that you love me
No matter what I've done
Tell me that you love
Tell me I'll always be your son

Girl

I don't understand, I've been in this car for days
Passing places I don't recognize
I don't understand
I don't understand
Why I'm so far from my home
From the people that I love so much
I don't understand

Could it be that I've done something wrong?
Could it be that I'm so bad?
Could it be that I'm the worst child that anybody had?

Girl Tell me that you love me
 Come hell or high water
 Tell me that you love
 Tell me I'll always be your daughter

Boy Tell me that you love me
 No matter what I've done
 Tell me that you love
 Tell me I'll always be your son

Boy/Girl I don't understand, I've been in this car for days
 Passing places I don't recognize, I don't understand
 I don't understand, I've been in this car for days
 Passing places I don't recognize
 I don't understand

 Tell us that you love us
 No matter where we are
 Tell us that you love us
 Tell us you'll remember who we are

 Tell us that you love us
 No matter where we are
 Tell us that you love us
 Tell us you'll remember who we ar.

Boy Could it be that I've done something wrong?
 Could it be that I'm so bad?

Girl Could it be that I'm the worst child that anybody had?

Welcome
Lyrics by Barry Brown
Music by Wilton

Gov. Welcome to your new home, welcome to the camp
It really is quite pleasant, if you don't mind a little damp
Say hello to the nuns and priest, they'll take good care of you
I know they seem a little odd, they have a different view

Being here today is for your own good
You may not like it first of all, we never thought you would
So knuckle down and tow the line, be good as you can be
Don't get on the wrong side of me
Don't get on the wrong side of me
Don't get on the wrong side of me
The wrong side of me

Over there's your new clothes, take them from the sack
Don't think about escaping, you won't find your way back
Every day there's three meals, every day the same
Nothing ever changes, except you and who to blame

Being here today is for your own good
You may not like it first of all, we never thought you would
So knuckle down and tow the line, be good as you can be
Don't get on the wrong side of me
Don't get on the wrong side of me
Don't get on the wrong side of me
The wrong side of me

Join with the others, standing over there
Never mind their sadness, or their vacant stare

You may not like it first of all, we never thought you would
Be good as you can be, be good as you can be

They know this is for better, it couldn't get much worse
Than the place they were before, now go and see the nurse
She'll give you the once-over and check that all is well
And then when she is happy

Boy Welcome to our first day in hell

Pity Me
Lyrics by Barry Brown
Music by Wilton

Child Chorus Pity Me, Pity Me, Pity Me, Pity Me
 (Home, let me go home)
 Pity Me, Pity Me, Pity Me
 (Home, let me go home)
 Pity Me, Pity Me, Pity Me
 (Home, let me go home)
 Pity Me, Pity Me, Pity Me
 (Home, let me go home)

Boy For a brief moment I thought I was home
 Thought I smelt my Mother's hair
 For just a moment I was there
 I was home
 For a brief moment I thought I was home
 In that old house by the stream
 Seemed more than just a dream
 I was home

 Happiness is a friend that I used to know
 A familiar place that I used to go
 Now darkness sits where you used to be
 Pity me, pity me, pity me

 For a brief moment I thought I was home
 My hand was holding your hand
 As we walked across our land
 I was home

For a brief moment I thought I was home
The smell of biscuits in the air
For just a moment I was there
I was home

Happiness is a friend that I used to know
A familiar place that I used to go
Now darkness sits where you used to be
Pity me, pity me, pity me

Child Chorus

Pity Me, Pity Me, Pity Me, Pity Me
(Home, let me go home)
Pity Me, Pity Me, Pity Me
(Home, let me go home)
Pity Me, Pity Me, Pity Me
(Home, let me go home)
Pity Me, Pity Me, Pity Me
(Home, let me go home)

Believe
Music and Lyrics by Barry Brown

Mom

When there's no light at the end of the tunnel
And the fears you had are real
When your hopes lie battered and broken
And your dreams tattered and torn

Believe and you will find a way
Believe and you will win the day
Believe and you will find a way
Believe and you will win the day

Dad

When there's no light at the end of the tunnel, for you
When your hopes lie battered and broken, it's true for you

Believe and you will find a way
Believe and you will win the day
Believe and you will find a way
Believe and you will win the day

Mom/Dad

Believe and you will find a way
Believe and you will win the day
Believe and you will find a way
Believe and you will win the day

Believe and you will find a way
Believe and you will win the day
Believe and you will find a way
Believe and you will win the day

Together
Lyrics by Barry Brown
Music by Wilton

Girl	I came by car
Boy	I came by train
Boy/Girl	Will we see our home again?
Boy	I miss my Mom
Girl	I miss my Dad
Boy/Girl	We miss the happy life we had
Girl	Now I have you to be my friend To hold my hand, when daylight ends
Boy	I have your smile to get me by You give me hope, the need to try
Girl	We can be friends, forever We'll make it through, together
Boy	We can be friends, forever We'll make it through, together
Girl	I know that you'll be there when I close my eyes I know that you'll be there at the next sunrise
Boy	I know that you'll be there when the darkness falls I know that you'll be there when the night owl calls
Boy	Now I have you to be my friend To hold my hand, when daylight ends
Girl	I have your smile to get me by You give me hope, the need to try

Boy/Girl

We can be friends, forever
We'll make it through, together
We can be friends, forever
We'll make it through, together

We can be friends, forever
We'll make it through, together
We can be friends, forever
We'll make it through, together

We can be friends, forever
We'll make it through, together
We can be friends, forever
We'll make it through, together

Choices
Lyrics by Barry Brown
Music by Wilton

Girl We can't throw away our life
We can't lose our history
Handed down through generations
Ending up with you and me

Boy There's a reason for our being
For the life that we must lead
It could all amount to nothing
If we cash it in for greed

Convert You've got to move with the times
You've got to improve your lot
Setting up new generations
Don't accept just what you've got
There's a better life out there
A chance to break the mould
You've got to take it while you can
Before you get too old
There's a better life out there
A chance to break the mould
You've got to take it while you can
Before you get too old

Girl But my father and his father
Have lived their lives this way
And their fathers and their fathers
Hand to mouth, day to day

Boy

Simple people, simple values
Simple lives, simple ways
From the day that they were born
Until the end of their days

Convert

You've got to move with the times
You've got to improve your lot
Setting up new generations
Don't accept just what you've got
There's a better life out there
A chance to break the mould
You've got to take it while you can
Before you get too old
There's a better life out there
A chance to break the mould
You've got to take it while you can
Before you get too old

Girl

We can't throw away our life
We can't lose our history
Handed down through generations
Ending up with you and me

You Are The One Who Saved Me
Music and Lyrics by Barry Brown

Dad

You gave me strength, when I had none
You made me stay, when I wanted to run
You gave me hope, in darkest days
You showed me light, in so many ways

You are the one (You are the one)
You are the one who saved me
You are the one (You are the one)
You are the one who saved me
You are the one

Mom

You broke the chains and set me free
Opened my eyes, when I couldn't see
You gave me breath, when there was none
You made me feel, life had just begun

You are the one (You are the one)
You are the one who saved me
You are the one (You are the one)
You are the one who saved me
You are the one

Mom

You are the one
You are the one who saved me

Dad

You are the one
You are the one who saved me

Mom/Dad

You are the one (You are the one)

You are the one who saved me

You are the one (You are the one)

You are the one who saved me

You are the one, the one who saved me

I'm Alright Jack
Lyrics by Barry Brown
Music by Wilton

Dad Where are our children? We have a right to know
Where did you take them? Where did they go?
Where are our daughters?

Mom Where are our sons?

Dad We must have the right, to see our loved ones

Mom Where are our children? We have a right to know
Where did you take them, where did they go?

Dad Where are our daughters?

Mom Where are our sons?
We must have the right, to see our loved ones

Gov. I answer questions with questions to throw you off track
I'm just going through the motions, cos I'm alright Jack
I've got clever stock excuses, to cover my back
I don't care about abuses, cos I'm alright Jack

Mom Tell us the reason, please tell us why
When can we see them? We have to try

Dad Who can we talk to? Where can we go?
Where are the answers? Please let us know

Gov. We know what's best for you, there's no need to consult
Just trust in what we do and see the end result
And if we get it wrong, of which there's little chance
We'll say we knew it all along, no-one will give a second glance

I answer questions with questions, to throw you off track
I'm just going through the motions, cos I'm alright Jack
I've got clever stock excuses, to cover my back
I don't care about abuses, Cos I'm alright Jack

You're Coming Home
Music and Lyrics by Barry Brown

Girl Sometimes in the dark, I dream that you are with me
Sometimes in the night the demons stay away
I know in my heart, you never would desert me
Deep down in my soul, you're there to light the way

Dad Don't you know you're not alone?
Close your eyes and you are home
Close your eyes and you're coming home
You're coming home

Boy Sometimes in the dark, I dream that you are with me
Sometimes in the night the demons stay away
I know in my heart, you never would desert me
Deep down in my soul, you're there to light the way

Mom Don't you know you're not alone?
Close your eyes and you are home
Close your eyes and you're coming home
You're coming home
You're coming home
You're coming home

Boy/Girl Sometimes in the dark, I dream that you are with me
Sometimes in the night the demons stay away
I know in my heart, you never would desert me
Deep down in my soul, you're there to light the way

Dad	Don't you know you're not alone?
Mom	Close your eyes and you are home
Dad	Close your eyes and you're coming home
Mom	You're coming home
Mom/Dad	You're coming home
	You're coming home
	You're coming home
	You're coming home

Getaway (i Escape)
Lyrics by Barry Brown
Music by Wilton

Girl

Now it's dark and it's time to sleep
The eldest go first, the young follow like sheep
The nuns search for guidance and offer up prayers
The priest he does likewise by a candle upstairs
The dogs are silent, tied up and fed
The world like the moon is tucked up in bed
It's time to depart the beatings and pain
It's time to get out, it's time to escape

Girl

Out through the back door, quiet as a mouse
Cross the yard slowly, past the main house
No-one is looking, no-one will see
The moon isn't out, only darkness and me

We've waited so long, for a night such as this
No moon to speak of, a chance we can't miss

Boy

Slipping the gate bolt, don't need a key
They're not expecting, anyone to break free
Both of us leaving, not coming back
Covering footsteps, not leaving a track

We've waited so long. for a night such as this
No moon to speak of, a chance we can't miss

Getaway (ii Keep An Eye On The Horizon)
Music and Lyrics by Barry Brown

Girl

I know it's been such a long, long time
Since you've seen my face, or called my name
Many moons have come and many moons have gone
I picture things as they once were
It seems so long ago
Many moons have come and many moons have gone

Keep an eye on the horizon
Keep an eye on the horizon
Cos someday I'll be there
Someday I'll be there
Someday I'll be there

I know it's been such a long, long time
Since you've seen my face, or called my name
Many moons have come and many moons have gone
I picture things as they once were
It seems so long ago
Many moons have come and many moons have gone

Keep an eye on the horizon
Keep an eye on the horizon
Cos someday I'll be there
Someday I'll be there
Someday I'll be there
Someday I'll be there
Someday I'll be there

Arrival At Home
Music and Lyrics by Barry Brown

Mom

The sun comes up and starts another day
Just one more dawn, since you went away
I have no choice, I have to carry on
But life's so hard, to live since you've been gone
I must stay strong and carry on
There'll come a day when we'll change to right from wrong
A day of hope, a day of trust
A day I know we'll see, in that much we must trust

Boy

The sun comes up and starts another day
One day closer, one more day on my way
I have no choice, I have to carry on
Follow the road, until the road is gone
I must stay strong and carry on
There'll come a day when we'll change to right from wrong
A day of hope, a day of trust
A day I know we'll see, in that much we must trust

Dad

Is that your voice, could that be you?
After all these years and things that we've been through?
I touch your face, I call your name
I hold you close I'll never let you go again

Girl

Is that your voice, could that be you?
After all these years and things that we've been through?
I touch your face, I call your name
I hold you close I'll never let you go again

Boy	Across the street, your face seems so familiar Where did we meet? Where was it now?
Girl	Can't seem to place it, but I know you somehow from long ago
Boy	It's coming back to me, I think I know
Girl	Can that be you? After all these years and things that we've been through
Boy	It was at the camp Many years ago
Boy/Girl	Do you remember me? Do you remember me?
Boy	You said move with the times, there's a better life out there I said don't throw it away, we can't lose our history
Girl	After all these years and things that we've been through Can that be you?
Boy/Girl	It's coming back to me I think I know
Boy/Girl	Do you remember me? Do you remember me? Do you remember me? Do you remember me? Do you remember me? Do you remember me?

Lost
Lyrics by Barry Brown
Music by Wilton

Convert Remember when I said that you were wrong?
I never saw it coming, I guess you knew it all along
Remember when I said we had to change?
I thought it was for better, I never thought I'd feel this strange

Convert I'm like a lock without a key
Gov. Like a ship without a sea
Convert I'm like a clock without a face
Gov. Disappeared without a trace
Convert I'm like a fire without a spark
Gov. Like a light without the dark
Convert I'm like a room without a door
Gov. No-one knows you anymore

Convert I don't know what to think
I don't know what to say
I don't know what to do no more
I don't know who I am

I'm stuck between the darkness and the light
I don't know which way to turn, I don't know what is wrong or right
I didn't think I'd miss our history
But now that I've forgotten, I don't know who I'm meant to be

Convert	I'm like a lock without a key
Gov.	Like a ship without a sea
Convert	I'm like a clock without a face
Gov.	Disappeared without a trace
Convert	I'm like a fire without a spark
Gov.	Like a light without the dark
Convert	I'm like a room without a door
Gov.	No-one knows you anymore

Convert I don't know what to think
I don't know what to say
I don't know what to do no more
I don't know who I am

No-one knows me anymore
Disappeared without a trace
